

# THE THREE PIN TRIGGER

NO. 22.

MADE OF THREE NAILS WITH HEADS FILED OFF OR ANY SMOOTH METAL SALVAGED FROM AIRPLANE OR PILOT CHUTE FRAME.

PTARMIGANS AND RABBITS FORM THE BULK OF SMALL NORTHERN GAME IN WINTER AND BOTH ARE EASILY SNARED WITH A SIMPLE NOOSE.

THE 3 PIN TRIGGER IS THE QUICKEST, SMOOTHEST AND STRONGEST TRIGGER FOR SURVIVAL USE.

RABBIT SNARE AND DRAG

BOUGHS FOR BEDS

WOOD FOR CAMP

## PACK ASSEMBLED WITH PACKSTRAP AND TUMPLINE

A HARD, ROUND  
PACK PULLS ON CHEST,  
SHOULDERS AND  
KIDNEYS. CAUSES  
UNDUE FATIGUE

ALL HEAVY PACKS  
HURT-AT FIRST, BUT  
THE COMBINED USE  
OF HEAD-AND SHOUL-  
DER STRAPS IS THE  
BEST "RIG" KNOWN

A SOFT, FLAT PACK  
FITS THE BODY. DOES  
NOT PULL OUTWARD.  
THE PULL EXERTED  
IS DOWNWARD, ALLOW-  
ING A MORE ERECT  
CARRIAGE AND  
LESS FATIGUE.

WHEN RESTING WITH HEAVY  
LOAD SIT IN FRONT OF A TREE  
SO THAT YOU CAN PULL YOURSELF  
UPRIGHT BY GRASPING BRANCHES  
- OR SIT ON A STEEP HILLSIDE

THE TUMPLINE AND SHOULDER STRAP  
PRINCIPAL OF WEIGHT CARRYING IS USED IN  
VARYING WAYS BY ALL PRIMITIVE PEOPLES.

# ALASKAN PACK ASSEMBLY AND THE TUMPLINE

THE FRONTIER RULE FOR ASSEMBLING  
PACKS WAS, "HARD FOR A HORSE AND SOFT  
FOR A MAN." ALWAYS MAKE UP YOUR  
PACK AS FLAT AND AS SOFT AS POSSIBLE

HARD STUFF ~ AMMUNITION, SEWING KIT,  
PEMMICAN ETC. IS PACKED EVENLY INSIDE DUFFLE  
BAG OR PARACHUTE FABRIC ~ ON TOP SIDE OF PACK.  
DO NOT ROLL PACK INTO A HARD MASS ~ FOLD IT.

~ THE TUMPLINE ~

~ PACK ASSEMBLED ~  
FOLD BOTH SIDES OF PACK ~  
COVER OVER "DUFFLE", THEN  
FOLD BOTTOM END OVER PACK  
FOLLOWED BY TOP END.  
LASH WITH SHROUD LINE  
AS SHOWN.

MADE OF PARACHUTE CLOTH  
20 IN. WIDE AND FOLDED  
FOUR TIMES. TIE LOOPS AT  
BOTH ENDS. THE STRINGS  
RUN FROM BOTTOM OF  
PACK TO TUMPLINE LOOPS.  
FIG. 2. (SEE PLATE NO. 24.)

NO.27.

# PLANT FIBER LINE OR ROPE

1. FASTEN ENDS OF TWO LINES OR FIBERS TO A SOLID BASE. GRASP EACH LINE BETWEEN THUMB AND FINGER OF EACH HAND.
2. TWIST LINES OR FIBERS TO RIGHT AS SHOWN.
3. LAY RIGHT HAND LINE OVER THE LEFT AND SHIFT LINES TO OPPOSITE HANDS.
4. REPEAT PROCEDURE.

USE FIBERS FROM LEAVES OF YUCCA, BARK OF CEDAR, WILLOW, SPRUCE AND OTHER SOURCES. SEARCH LOCALLY.

3904 Training Squadron - SAC.

# TOGGLE AND TENDON METHOD OF CARRYING GAME ANIMALS

FRONT LEG  
OF YOUNG  
CARIBOU

MAKE CUT A-B. ON BACK  
OF FRONT LEGS. (FIG. 1)  
SEPERATE BONES AT KNEE,  
PULL OUT LOWER BONES TO  
FORM TOGGLE. (FIG. 2.)

4. FORCE TOGGLES  
THROUGH HOLES  
IN HIND LEGS.  
(FIG. 3.) THUS  
FORMING SHOUL-  
DER STRAPS OUT  
OF FRONT LEGS.

CUT THROUGH  
HIND LEGS BETWEEN  
BONE AND HAMSTRING  
TENDON. (FIG. 3.)

# THE "OTTER" TROT LINE & TROLL

BIRD'S EYE VIEW OF "OTTER" LOG

FLATTEN WITH AXE

FLOAT ANCHOR LINE ANCHOR

LOG WITH ANCHOR, FLOAT AND ANCHOR LINE IS LAUNCHED AT POINT A. THEN TOWED GENTLY, BUT WITH ACCELERATED SPEED, TO-G. AT POINT-G, SURVIVOR ALLOWS LOG TO GLIDE TO-D. A QUICK PULL ON LINE-X RELEASES IT FROM AXE CUT, FLOAT IS PULLED FROM LOG FOLLOWED BY THE ANCHOR WHICH, SINKING TO BOTTOM, HOLDS FLOAT AND TROT LINE IN PLACE.

SURVIVOR THEN BAITS AND TIES HOOKS TO LINE-Y. AND PULLS THEM OUT TO DEEP WATER WITH LINE-X. A ROCK SINKER ON LINE-Y. WILL KEEP IT FROM FOULING LINE-X. AT INTERVALS FISH ARE RE-TRIEVED, HOOKS RE-BAITED AND PULLED BACK TO DEEP WATER. TO TROLL WITH "OTTER," TIE SINGLE LINE TO LOG, AT POINT INDICATED ABOVE, TIE ON FLIES, SPOONS OR BAITED HOOKS AT TEN FOOT INTERVALS TO LOG. PULL LOG GENTLY, PARALLEL WITH SHORE.

# SNARES FOR SMALL GAME

TRIGGER-STICK MUST BE EXACT SIZE OF TRIGGER-HOLE - NOT SMALLER. TRIGGER-STICK IS HELD IN PLACE BY PULL OF SNARE-THREAD. ADJUSTMENT OF SMALL SNARES REQUIRES PATIENCE BUT ONE CHICKADEE USED FOR FISH BAIT CAN FURNISH FOOD FOR A LARGE PARTY.
